0.1 Quick Overview

1. Manual Upload vs Linked Donors
2. What the formatter actually does
3. What to look for in a file
4. Common issues and why they probably happen

0.2 Manual Upload vs Linked Donors

- Generally, we want to work with the data baked into ABBA that we know will match
 - So, in most cases, using the Linked Donors portal is the preferred option

0.3 Manual Upload

- Manual uploads need to happen for a few reasons
 - Not enough Linked Donors/no data for that state
 - Specific people need to be added
- It used be basically a last resort; now has been required for a lot more projects
 - CVS [Insert state here]
- It's not *the* preferred method because the data quality is horrendous

0.4 Enter the Formatter

- The Donor Cleaner exists for two main reasons
 - Expedite the process (main function)
 - Ensure compatibility (this has been harder...)
- In the past, every change was done manually
 - Renaming and deleting columns
 - Cleaning the actual data
- There were lots of problems with this approach

0.7 What Files Do You Use?

- The tool is programmed for the columns of most state files
 - So long as you have the right state source, it will work
- However, it is not that sophisticated beyond the transformations
 - Doesn't automatically detect some errors
 - Cannot tell if you have the right file for the right person
 - If you have the wrong file, it will just give up

0.8 What Files Do You Use?

- Generally, the file you look for should meet the following criteria:
 - Comes from a government website (usually the SOS office)
 - Each row represents an individual donation
 - The file was generated from a search for **contributions to** or **receipts by**
 - The file has itemized names and addresses (zips!!) for each donation

0.9 Always Check for the Records Processed!

0.10 What's Wrong With This File?

0.11 Common File Issues

- *A file has very few listed contributions to a very popular candidate*
 - Check it's contributions **to** that candidate and not **by** that candidate
- *The formatted file uploaded to ABBA but no records processed*
 - Look at the file to see where data is missing
- *I used a campaign finance site but the tool doesn't like the file*
 - Some states have 2-3 portals with different file schemas, so see if there is another one
 - Panic
